## CNG TRUCKS

Why use Compressed Natural Gas?

- ◆ Natural Gas is produced in America and sold by American companies.
- ◆ Cleaner burn for your environment and your engine.
- ◆ Natural Gas is cheaper than diesel in Utah.

Why aren't more people using CNG?

- ◆ Equipment cost are 15% higher than diesel.
- ◆ Research and development is still rapidly changing.
- ◆ CNG trucks have less power so they have to burn more fuel (Approximately 20 to 30 percent more)

What is Ace doing now?

- ◆ 6 of our 85 trucks on the road everyday are dedicated CNG with plans of running more.
- ◆ We have applied for a grant to convert 3 of our diesel trucks to CNG in 2010.
- ◆ We are testing a CNG/Diesel hybrid for alternative power options.

**Helping the environment...One truck at a time .**

# HAZARDOUS WASTE

Do you know what is considered hazardous waste? Not many people realize that some of the products they use on a daily basis are in fact hazardous and should not be tossed out with the trash.

- Antifreeze
- Batteries
- Fluorescent light tubes
- Gasoline
- Oil
- Paint
- Pesticides
- Transmission fluid

- Chemicals
- Explosives
- Radioactive material
- Old tires

If disposed of properly, many of the items can be reused or recycled.

Collection locations for hazardous waste has been added for your convenience.

# PLOWING

Three things to always remember during the winter are **PLOW**, **SHOVEL** & **SALT**. Help us help you! Year after year we always have the one heavy snow storm that throws us all for a loop. Please remember to keep your enclosure area clear of snow and ice.

We can recommend Plow Companies that will keep your enclosure free and clear of snow.

# CHRISTMAS ROLL OFFS

**Need a large roll off container for a few weeks to clean up?**

This is a great service to remove your residents' Christmas trees or excess Christmas waste. Plan ahead and schedule your Christmas Roll Off today!
